CHEMLUBE® 275
SYNTHETIC HIGH TEMPERATURE CHAIN LUBRICANT

Applications:

Chemlube 275 is a fully synthetic diester-based chain lubricant designed for use in high temperature applications and harsh environmental conditions. This premium chain oil contains soluble organic compounds for added wear protection. Chemlube 275 gives extended life in the temperature range of -10°F to 450°F and will reduce carbon, gum or sludge deposits. It also has a low evaporation rate making it last longer and has outstanding wetting and spreading properties. With these properties, Chemlube 275 yields savings in maintenance dollars.

Typical Industrial Applications:

- Textile Tenter Frames
- Conveyors
- Lateral Chain Belts
- Tunnel / Lap / Tray Ovens
- Cam
- Bearings
- High Speed Can Lines
- Oven Slides & Gears
- Conveyor Roller Ball Bearing Chains
- Wood Processing
- Coating Ovens Automotive Industry

Performance Benefits:

- Superior resistance to wear
- Highest degree of high temperature corrosion-oxidation stability
- Reduced maintenance cost & cleanliness
- Non-slinging
